*Charter Schools and Accountability in
 Public Education*, 214
 Charter schools: advantages of, 87–88;
 district charter schools, 96; district
 contract schools, 96; independent
 charter schools, 96–97; teachers
 unions' opposition to, 208–9

 Children's Scholarship Fund (CSF): advertis-
 ing exposure and, 58–59; low-to-
 moderate income focus, 52–53;
 scholarship value restrictions, 53;
 scope of, 54; suitability for empirical
 study, 54
 Children's Scholarship Fund enrollment sur-
 vey: academic ability and, 63; aca-
 demic ambition/frustration and, 63;
 college attendance as a negative pre-
 dictor, 73; data collection procedures,
 56–59; educational attainment, 67;
 geographical factors, 68; Harvard
 CSF applicant survey, 56–57; high-
 needs children, 69; low predictability
 results of, 73; modeling results,
 71–77; mother's age, 67; mother's
 age as a predictor, 73; mother's labor-
 force participation, 67; nonadmission
 factors, 78–80; private school avail-
 ability, 70; public school satisfaction
 levels and, 64–65; racial composition
 of public schools, 70; racial segrega-
 tion potential, 65–66; religious affilia-
 tions, 68–69; residential stability as a
 predictor, 73; significance of mother's
 role, 67; "skimming" effect, 60–61;
 two-parent homes, 68; voucher take-
 up modeling, 66–77
 Children's Scholarship Fund survey: adver-
 tising exposure and, 61; applicant
 demographics, 59–66; Catholics and,
 61; Catholic church attendance as a
 predictor, 77; Harvard CSF potential
 applicant survey, 57; income level as
 a predictor, 75; Knowledge Net-
 works, Inc. panel and, 58; Monte
 Carlo simulation method on, 75–76;
 nonadmission and academic profi-
 ciency, 79; nonadmission and afford-
 ability, 79; nonadmission and
 available space, 79; parental initia-
 tive and, 62; parental involvement
 and, 61; private school market share
 as predictor, 77; proportion of
 African American applicants, 60–61;
 racial composition as a predictor, 75;
 racial factors as predictors, 74;

- religious affiliation/commitment as predictors, 74; religious observance and, 61; target questions, 52
- choice programs, 109–10: assessment criteria, 15–16; constraints on, 45–46; effects of constraints, 47; interaction with special education, 123–24; limitations of evidence, 44–46; with respect to dollar and human resource inequities, 42–43; with respect to opportunity-expanding programs, 43–44; with respect to opportunity-limiting programs, 43; with respect to segregation, 42
