

## SCOTT W. ATLAS

*Senior Fellow*

**Expertise: Magnetic resonance imaging, neuroradiology, U.S. health care delivery systems**

A Hoover fellow since January 2002, Scott Atlas is also a professor of radiology and chief of neuroradiology at Stanford University Medical Center. In addition to his clinical research and practice, he is examining the forces that drive the development and subsequent adoption or implementation of new advanced medical technologies, many of which are highly expensive. In particular, he is investigating the effects of managed care and other economic changes on the health care delivery system in the United States. The holder of an M.D. degree from the Pritzker School of Medicine at the University of Chicago, he is a prolific author and serves on the editorial boards of numerous professional journals.
